

ASSEMBLY INSTRUCTIONS

Display Row Wine Cellar Kits (All Models)

Questions?
Toll free 1-888-373-6057 or visit WineRacksAmerica.com

Thank you and CONGRATULATIONS for purchasing this quality product. Properly assembled, your racking will beautifully enhance your wine collection for many years to come. To assemble, please check to ensure all necessary parts are included and follow the assembly instructions closely. If you have any questions or problems please call customer service toll free 1-888-373-6057 Monday through Friday 7:00 am - 5:00pm MST.

Planning to stain?

For best results we recommend you stain or finish your racking BEFORE assembly.

Tools For Assembly:

The instructions pictured are for a 6 column cellar rack. Follow the same steps for all standard wine cellar racks, regardless of model.

PACKAGE CONTENTS

* Please verify that you have the correct number of parts before proceeding. Depending on the model you purchased, your bundle should contain the following:

RACK	MIDDLE LADDERS	END LADDERS	STANDARD CONNECTORS	SCREWLESS CONNECTORS	DISPLAY TRAYS	1 1/4" SCREWS	FINISH NAILS
10 column	9	2	(6) 10 column	(2) 10 column	10	66	22
9 column	8	2	(6) 9 column	(2) 9 column	9	60	20
8 column	7	2	(6) 8 column	(2) 8 column	8	54	18
7 column	6	2	(6) 7 column	(2) 7 column	7	48	16
6 column	5	2	(6) 6 column	(2) 6 column	6	42	14
5 column	4	2	(6) 5 column	(2) 5 column	5	36	12
4 column	3	2	(6) 4 column	(2) 4 column	4	30	10
3 column	2	2	(6) 3 column	(2) 3 column	3	24	8
2 column	1	2	(6) 2 column	(2) 2 column	2	18	6
1 column	0	2	(6) 1 column	(2) 1 column	1	12	4

* All models follow the same assembly procedure - varying only in the number of middle ladders your rack will require.

* PLEASE FOLLOW WRITTEN INSTRUCTIONS CAREFULLY

1. Find an open, flat area in which to work. Carefully remove all components from the box and remove banding with a utility knife. Check the parts list to verify package contents
2. Arrange the end ladders on the floor so that the bottle support pieces face one another. Align the large gaps on each end ladder. **The end with the larger gap is the top of your rack.** Attach a standard column connector to the top and bottom of your rack using the 1 1/4" screws provided. Make sure the connectors are flush with the top and bottom of your rack. (figure 1)

* **Minimize the risk of splitting your ladders by drilling a 1/16" pilot hole before driving the wood screws. For best results, drive the screw most of the way in with your drill, then finish tightening by hand.**

3. Insert the middle ladders and finish securing the top & bottom connectors using the 1 1/4" screws provided.
4. Attach the middle standard connectors so that the top edge of the lower connector is 26 13/16" from the bottom of the rack, and the top edge of the upper connector is 56 5/16" from the bottom of the rack. Secure the middle connectors using the 1 1/4" screws provided. **This is the back of your rack.** (figure 2)
5. Flip rack over and secure a standard column connector to the top and bottom of the front of your rack using the 1 1/4" screws provided.

6. Attach the middle screwless connectors to the front of your rack. Make sure that the top edge of the lower connector is 26 13/16" from the bottom of the rack, and the top edge of the upper connector is 51 15/16" from the bottom of the rack. Make sure the rack is flat on the floor while attaching the screwless connectors. (figure 3)

Secure the screwless connectors using a finish nail gun to drive a finish nail through the connector into each vertical ladder. (figure 4)

If you do not have a finish nail gun, drive one of the provided finish nails into each vertical ladder until it is flush. Then, countersink the nail using a nail setter until the head of the nail is about 1/16" below the surface of the wood.

4. SECURE WITH FINISH NAILS

3. ATTACH THE SCREWLESS CONNECTORS

7. Fill the nail holes using the wood putty provided. Simply push the putty into each hole using your thumb and wipe excess putty off the surface using a damp cloth.

8. Insert Display Trays

Insert a metal U-bar into the two pre-drilled holes of each display tray by pushing down on the U-bar until it reaches the bottom of the holes. (figure 5)

Stand your rack upright. To secure your display trays to your rack apply a bead of wood glue to each of the two grooves on the back of the tray. (figure 6)

Then, put the tray into place so that the grooves rest on the upper middle connectors. (figure 7)

Allow wood glue to fully dry before storing wine bottles in the display trays.

9. That's it! Enjoy this beautiful rack with your favorite beverage. Pair with other rack styles for an ultimate cellar storage look.

Attaching your rack to the wall:

Depending on how many bottles you store, your wine cellar rack could weigh as much as 540 lbs. To avoid tipping attach your racking to the wall using one of the following methods.

1. Put the rack in the desired location.
2. Shim the front of the rack so it is even with the back wall.
3. Locate a wall stud behind the rack.
4. Drive a 2 1/2" wood screw through a back connector to attach to the stud.

- OR -

1. Use "L" brackets (located at any hardware store).
2. Attach to both the rack and the wall in any out of the way spot.

5 INSERT METAL U-BARS

6 APPLY WOOD GLUE

7 ATTACH DISPLAY TRAYS
